

KRUNAL DEVTALE

FULL STACK DEVELOPER

+91 7999901088 | krunaldevtale79@gmail.com | linkedin.com/in/krunal-devtale | github.com/krunaldevtale

Summary

Frontend Developer with **2 years of experience** building responsive web applications and dashboards using **HTML, CSS, Tailwind CSS, JavaScript, and React.js**. Worked on real-world production projects including a cloud office management platform with advanced authentication and dynamic dashboards. Now expanding into Full Stack development with **Node.js, Express, and MongoDB**, seeking a **React or Full Stack Developer** role.

Work Experience

Aibuzz Technoventures — PocketOffice

2024 – Present

Frontend Developer

- Built and maintained the **complete frontend** of PocketOffice, a smart cloud office management platform used for seamless team collaboration and management.
- Developed advanced authentication UI including **Face Recognition login, Voice Verification, Google OAuth** integration, and **OTP-based two-step verification** using HTML, CSS, JavaScript, and Tailwind CSS.
- Built responsive **admin dashboards**, user management panels, and dynamic iFrame-based navigation with animated page transitions in a PHP backend environment.
- Implemented real-time theming, resizable UI components, and utility widgets to enhance the desktop-style browser interface.
- Collaborated with the backend team to integrate **RESTful APIs** and ensure smooth data flow across all dashboard modules.

Skills

Languages: JavaScript, TypeScript

Frontend: React.js, HTML, CSS, Tailwind CSS, Framer Motion

Backend: Node.js, Express.js, REST APIs

Database: MongoDB, Mongoose, MongoDB Atlas

Tools: Git, GitHub, Postman, Vercel, Render

Projects

Job Portal | [GitHub](#) | *React, Node.js, Express, MongoDB, Tailwind CSS, Framer Motion*

- Built a **full-stack job portal** with role-based access for candidates and recruiters, featuring **JWT authentication**, protected routes, and complete CRUD operations.
- Implemented **recruiter dashboard** with job posting (dynamic skill tags), applicant management, and accept/reject functionality with real-time status updates.
- Built **candidate dashboard** to track all applications with status badges (pending/accepted/rejected) and cover letter support.
- Designed modern **animated UI** with Framer Motion — page transitions, staggered card animations, loading skeletons, and split-screen login/register page.
- Deployed frontend on **Vercel** and backend on **Vercel** with **MongoDB Atlas** for cloud database.

Crypto Price Tracker | [GitHub](#) | *React, Tailwind CSS, CoinGecko API*

- Built a **real-time crypto price tracking platform** integrating CoinGecko API for live prices, historical data, and interactive charts.
- Implemented search, filtering, and **responsive UI** with modern design using React and Tailwind CSS.

Education

Guru Nanak Institute of Engineering and Technology

Graduated: June 2023

Bachelor of Engineering in Computer Science
